Why Is Your Hair Dry?

Dryness is rarely about doing too little – it is usually one or two habits quietly working against you. Tick everything that sounds like your hair, then read what your score means.

HYDRATION ASSESSMENT

- | | |
|---|--|
| ☐ My hair feels dry again within a day | ☐ I sleep without satin or a bonnet |
| ☐ Water beads on top or vanishes instantly | ☐ My ends feel rough, thin, or split |
| ☐ I reach for oil when my hair feels dry | ☐ I use direct heat or colour often |
| ☐ I skip deep conditioning most weeks | ☐ Product builds up; I rarely clarify |
| ☐ I don't seal after I moisturise | ☐ Styles never feel soft the next day |

WHAT YOUR SCORE MEANS

- **0-2** – small adjustments needed; you're close.
- **3-5** – moisture leaks present; the checklists ahead fix them fast.
- **6+** – start the Emergency Checklist (p.5) tonight.

SCHICGIRL TIP

Dryness has only two causes: not enough moisture getting in, or too much escaping out. Every fix in this guide solves one of those two.

WHY HAIR STAYS DRY ✓ Moisture isn't entering ✓ Moisture isn't staying ✓ Damaged ends
✓ Product buildup ✓ Inconsistent routines

Daily & Weekly Habits

DAILY HABITS CHECKLIST

- ☐ Start with **water** or a water-based mist — not oil
- ☐ Seal damp hair with a light cream or oil
- ☐ Refresh dry sections with a quick water spritz
- ☐ Keep ends tucked or protected through the day
- ☐ Re-moisturise only where needed — don't soak
- ☐ Hydrate yourself too: water + shield from sun & wind

WEEKLY HABITS CHECKLIST

- ☐ Cleanse (shampoo or co-wash) to reset the hair
- ☐ Deep condition — *with heat* if low porosity
- ☐ Layer LOC or LCO right after wash day
- ☐ Detangle gently on slip (conditioner or water)
- ☐ Wear a protective or low-manipulation style
- ☐ Light protein every 2–4 weeks if high porosity
- ☐ Clarify every 2–4 weeks to clear buildup

Products & Moisture Retention

PRODUCT CHECKLIST — WHAT YOUR SHELF NEEDS

- | | |
|---|--|
| ☐ A water-based leave-in (water = 1st ingredient) | ☐ A light protein treatment (high porosity) |
| ☐ A creamy moisturiser or butter | ☐ A gentle or clarifying cleanser |
| ☐ A sealing oil (jojoba, castor, grapeseed...) | ☐ A spray bottle for water refreshes |
| ☐ A rich, moisturising deep conditioner | ☐ Satin bonnet, scarf, or pillowcase |

MOISTURE RETENTION CHECKLIST — KEEP IT IN

- ☐ Always **seal** after you moisturise — never skip it
- ☐ Layer in your porosity's order: LOC (high) / LCO (low)
- ☐ Style on **damp** hair, not soaking or bone-dry
- ☐ Lock the ends — they dry first and break first
- ☐ Sleep on satin every single night
- ☐ Skip drying ingredients (harsh sulfates, drying alcohols)
- ☐ Cool-rinse to close the cuticle (high porosity)

Emergency Dryness Checklist

- 1 **Mist** thoroughly with water until evenly damp
- 2 Smooth a leave-in (or a little conditioner) through
- 3 Seal with an oil, then a cream on the ends
- 4 Cover with a plastic cap 15–20 min (body heat)
- 5 Low porosity? Add gentle warmth to help it absorb
- 6 Loosely twist or braid, then let dry → soft, revived hair
- 7 Tonight: satin + a light water-and-oil refresh

QUICK WINS THIS WEEK

Just three habits change everything: **(1)** start with water, **(2)** always seal, **(3)** sleep on satin. Do only these and you'll feel the difference by your next wash day.

REMEMBER THIS

Schicgirl Tips

- **Water is the only true moisturiser** — everything else just helps it get in or stay in.
- **If you do one thing, seal.** Moisture you don't lock in is moisture you lose.
- **Match the method to porosity** — LCO for low, LOC for high.
- **Treat your ends first and most** — they're the oldest, most fragile hair.
- **Consistency beats intensity** — small daily habits outperform occasional rescue missions.

FROM CHECKLIST TO COMPLETE SYSTEM

If this checklist helped you identify your hydration challenges, *Hydrated — The Complete Type 4 Hydration Handbook* expands these principles into a complete hydration system with routines, frameworks, troubleshooting tools, and implementation guides.

“Your crown deserves consistency more than complexity.”

SCHICGIRL WISDOM

CONTINUE YOUR HAIR JOURNEY

Ready for the Next Step?

Your checklist gave you the essentials. *Hydrated* gives you the complete handbook behind every item on it.

It is the why, the how, and the full routine that ties your moisture care together for good.

RECOMMENDED NEXT RESOURCE

Hydrated

Transform dry, thirsty strands into soft, hydrated, resilient Type 4 hair — with a complete moisture system you can actually follow.

If you enjoyed this guide and want a complete step-by-step system, this resource was created for you.

INSIDE YOU'LL DISCOVER

- ✓ The science of moisture in Type 4 hair, in plain language
- ✓ How to build a hydration routine around your porosity and lifestyle
- ✓ The layering and sealing techniques that hold moisture for days
- ✓ How to fix chronic dryness at the root, not just mask it
- ✓ A complete wash-day-to-refresh routine you can keep

Who it's for: Anyone ready to move from a checklist to a complete, lasting hydration system.

If this checklist helped, Hydrated is the full handbook it was drawn from.
